

Andrej Nikolic

Web developer

Hard-working web developer with **7+ years** of experience and **strong front-end skills**, that likes to improve himself on an everyday basis. His website is used as an example to illustrate how interactive design can attract customers, in a book on marketing tactics published by the Faculty of Economics. Working in marketing and creative agencies allowed him to expand his knowledge in various marketing strategies. **Fast learner, eager to learn**, enjoys working in a team environment, sharing his ideas and help whenever possible.
